From experience, the earlier in the planning stages Compliance 4 Buildings are contacted allows for relevant specifications to be produced and avoid any alterations or difficulties later in the project. Early stage planning is an efficient method to aid in the positive certification process and meeting Building Regulations to the satisfaction of Building Control.

Our Process:

Compliance 4 Buildings run a six-stage process to certification. The process has been developed to meet the needs of our customers by our project management team.

- 1 Project Discussion
- 2 Information Request
- 3 Quote Formation
- 4 Booking and Acceptance of Terms
- 5 Testing and Payment
- 6 Certification

Should you be experiencing problems relating to compliance on a project, Compliance 4 Buildings are able to offer consultant services to reach a positive outcome.
